

# GIVE YOUR VENDING MACHINE A BRAIN.

## SMARTONE RETROFIT KITS EASY 1 Electronic Audit Boxes

### *It All Starts With DEX...*

*Get DEX from virtually all your vending machines. SMARTONE Retrofit Kits make DEX possible for your older non-DEX machines, integrating seamlessly with your new, DEX-capable machines. Anything less just doesn't make sense.*

#### **"saved us several thousand dollars"**

*"InOne has been a plus for my company. With their help, we were able to make over fifty older, "single price" vending machines DEX capable for one of our customers. InOne supplied all of the needed equipment and support to make this happen. InOne not only saved us several thousand dollars in cooler costs but, their technical support made the transition smooth as well."*

*Randy Baker, Chattanooga Coca-Cola*

#### **"100% DEX in only two months"**

*"The responsiveness of inOne's personnel has matched any expectations and exceeded most. The EASY 1 boxes have enabled our company to become 100% DEX in only two months; a feat that should have taken years."*

*Donnie Pemberton, Pepi Foods*

#### **"experienced, innovative and dependable"**

*"We began using the EASY 1 Audit Boxes from InOne Technology in 2001 and continue to use the product to this day. InOne is experienced, innovative and dependable. We have easily installed this product in the field allowing us to update with the technology of today."*

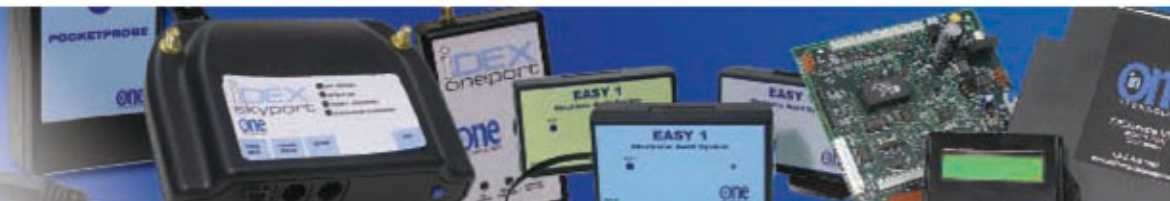

*Bill Wassink, Loose Ends Vending*

Get the DEX data you need from all your machines without the expense of replacing your older vending machines!

# SMARTONE RETROFIT KITS

## EASY 1 Electronic Audit Boxes

Whether you are going with wireless, curbside or DEX handhelds, you are going to need to have DEX compliant machines. InOne's SMARTONE retrofit kits make it possible to electronically audit virtually all your vending machines, even your older non-DEX machines.

### *Fast and Easy Installation*

Installation of the SMARTONE EASY 1 is fast and easy. Simply use the T-harness cables to: 1) connect to the coinmech, 2) connect to the bill acceptor and 3) connect to the motors. There is no cutting, no splicing and no soldering. Installation only takes about 10 minutes.

EASY 1's transparent functionality makes it completely invisible to your machine. It will not interfere with performance or reliability. The small footprint of the EASY 1, only 3" X 5 1/2" X 1 1/2", allows it to squeeze into some pretty tight spots.

InOne is the obvious choice for DEX upgrade kits...

### *Experience and Know How*

With over 150,000 EASY 1 units installed in the field, InOne is the solution of choice in 95% of DEX upgrades.

InOne has been named the DEX expert by the vending industry. Our knowledge of vending machines, both old and new and our DEX expertise is why operators, software providers and OEMs alike, work with and recommend our products.

### *Flexibility*

As with all InOne products, flexibility was a priority in the SMARTONE system. The kits are designed to work with any DEX Capable software and will interface with any DEX-Compliant Remote Monitoring device.

The SMARTONE system also has the distinction of being able to upgrade the widest variety of vending machines. It can be installed in virtually any electronic vending machine be it snack, soda, food or coffee. EASY 1 is UL Listed.

### *DEX Data Available:*

Time and Date of Service	Coins to Cash Box
Total Vends	Bills to Stacker
Total Sales	Cash Paid Out
Total Cash Accepted	Unit Sales by Selection
Coins to Tubes	Sales by Price Category
